

## Need to ePrescribe to meet the new federal law?

WENO Online found at [online.wenoexchange.com](http://online.wenoexchange.com) is the most economical stand-alone ePrescribing system to help you with this. It's free to register for an account and we offer each user the option to be under a FREE or PAID plan.

WENO Online has 2 approved DEA audits which can be viewed at [online.wenoexchange.com](http://online.wenoexchange.com). These allow users to verify the system meets the DEA's rules for prescribers and pharmacies to process electronically prescribe controlled substances (EPCS).

If you just need regular ePrescribing just sign up and start using it. If your practice needs EPCS, then follow the steps below to understand how to get started.

## For accounts that need EPCS:

1. A non-DEA registrant should be the 1<sup>st</sup> administrator user of your account because a DEA registrant cannot give themselves initial permission for an EPCS role.
2. The 1st administrator user will log in and add any other locations & users.

Free Plan with ADs	Paid Plan without ADs
*If user needs EPCS there is a \$99 ID proofing charge	\$144/year per user, it includes ID proofing if the user needs EPCS

3. After an EPCS user is added, then they will get 2 emails. One to access their account and the other is for ID proofing steps. When ID proofing is complete, they are ready to use it for EPCS.

**IMPORTANT NOTE:** Prescribers may experience some initial pharmacy call backs as they may not have heard of WENO before. When you ePrescribe using WENO, the pharmacies that are not already connected to WENO, will receive a fax instructing them how to access & process your ePrescription on WENO Online until their system can connect. They are required to retain the electronic version by DEA rules for EPCS. Our contact information is on their fax instructions, tell them to contact us if they need help.
