Your Responsibilities

To Be Compliant with Applicable Law

You are required to be compliant with applicable United States (“US”) or International Laws, which means all laws, statutes, common law, regulations, ordinances, codes, rules, guidelines, orders, permits, tariffs, and approvals, of any governmental authority, including those relating to prescribing medications, Information Blocking rules of the CURES Act, Medicare electronic prescriber laws, or any law that applies to you or the subject matter of this Agreement.

Account Registration & Maintenance

To use any of the Services, you must provide WENO with accurate and truthful information to create and maintain any account you have been given access to. Methods to do this include:

- 1) signing up for the appropriate Service(s) as directed on our website wenoexchange.com or
- 2) by requesting the account registration form from WENO.

Each account you use requires at least one primary account user with authority to manage the account (“administrative user”). All user and account information must be accurate and up to date as long as you use the Services.

Allow Communication

You are required to allow communication from WENO, directly or through third parties, to make any inquiries we consider appropriate to verify the information you provide in your account. You consent to us sending you communications relating to the Services, and this takes precedence over any direction you may give through any of our Sites or Services.

Required Testing for EHRs, PTVs, Pharmacy Chains, Health Plans, and PBMs

If you represent an EHR, a PTV, a pharmacy chain, a Health Plan or PBM, these account types requires testing prior to accessing the live production environment. WENO offers you with a technical kick off call prior to accessing your certification and testing dashboard. Once you pass your test plan, then you will gain access to the live production dashboard. EHRs using the EZ integration at WENO Online can opt out of the technical kick off call as their account is automatically in TEST MODE and the developer’s page explains the steps for testing to get off TEST Mode. For pharmacy chains using the WENO Intermediary service, all pharmacies must be in production within sixty days of moving to the live environment, unless an extension is otherwise approved by WENO in writing. This allows patients that select chain pharmacies to be able to receive their legal ePrescriptions when a state or federal regulation requires the drug to be electronically prescribed.

Annual Account Review

All EHRs either using the WENO Intermediary service or the WENO Online API in the live environment must submit to an annual review of their account to continue on the live environment. WENO also may require this review at any time issues surface that need correction.

WENO Directories

WENO has three types of Directories used for routing transactions to the right recipients. All accounts except personal users of WENO Online have responsibilities that relate to the WENO Directories.

- 1) **Pharmacy Directory**: This directory is available and used by EHRs and prescribers for the purpose of patient's selecting pharmacies. Pharmacy type accounts are responsible to provide and maintain required pharmacy information so the pharmacy directory is accurate. EHRs are required to download the pharmacy directory daily for changes and weekly for a full file replace. This ensures they have the most accurate information.
- 2) **Prescriber Directory**: This directory is optionally used by PTVs and Pharmacy Chains using the WENO intermediary service to transmit eRx messages to prescribers. EHRs, medical and veterinary ePrescribing type accounts must provide and maintain accurate information on their registered prescribers so this directory is accurate. All transactions sent by EHRs must include sending prescriber data fields that are not in conflict with the registered prescriber's data found in the WENO prescriber directory.
- 3) **Covered Lives Directory**: Health Plan and Pharmacy Benefit Managers ("PBM") are trading partners using WENO's Intermediary for participating in Medication History and other transactions between prescribers on WENO. They are required to provide and maintain accurate information to WENO representing the covered lives their health plans represent. The Covered Lives Directory is not published. It is for WENO's internal routing purposes only. Medication History participation is required by federal law for Medicare Part D health plans.

Your Account will have access to WENO Directories on a need-to-know basis only. You agree that any account or user information that comes to reside on the WENO Directory is confidential and the property of WENO. This section will survive the Termination of the Agreement.
